Bonava sells 49 rental apartments in Nacka

Bonava is selling a rental project in the Tollare residential area in Nacka to the property company HEFAB fastighets AB. The project comprises 49 rental apartments contained in two apartment blocks.

"The development of well-planned, attractive rental apartments is important in our efforts to realise our vision of creating homes and happy neighbourhoods where people have the highest quality of life. The 49 rental apartments comprise an important part of the development of the Tollare district, where about 1,100 homes will be built within a few years," says Fredrik Hemborg, Business Unit Manager, Bonava Sweden.

Tollare is an area comprising mixed forms of tenure located in close proximity to water and nature. Despite this closeness to nature, the pulse of a major city is less than ten kilometres away. Bonava has commissioned Gärhovs bygg AB to carry out the construction work.

The housing project is expected to be completed and recognised in profit in Bonava Sweden in the second quarter of 2018.
