Bonava initiates sale of new phase in Älta, Nacka

Bonava has initiated the sale of an additional 28 houses in Ältadalen in Nacka, Sweden. At the sales start, all housing units were reserved. It is estimated that the first homes will be handed over to the customer in the fourth quarter of 2020.

- We are now continuing to create additional homes in the attractive area of Ältadalen. It is wonderful to see that the huge interest in Ältadalen has continued into this next phase. This confirms that we have succeeded in creating a happy neighbourhood where people have the highest quality of life. Our updated house model in the Pionen block is popular among customers and the location close to nature and a large activity park will allow people to spend time together in the area where they live, says Fredrik Hemborg, Business Unit President, Bonava Sweden.

Bonava is planning to build a total of 46 houses in the area, divided into two sales phases. The Pionen block is a child-friendly and active neighbourhood with a small-town feel.
